CHEATS taken from [dlh.net]

Open up the file Hitman.ini, which is located in your Hitman game directory. Add the line:

```
enableconsole 1
```

Then during gameplay, press [-] and type in the codes:

```
god 1      God mode
giveall    All weapons with max ammo
infammo   Unlimited ammo
invisible 1 Invisibility
```

Use [Tab] to scroll through all the commands

To get access to all missions, start a new game and name the character Kim Bo Kastekniv (the code is case sensitive).
